

# **CIRCLE LMS** FOR **AVIATION**

## **HELP YOUR ORGANIZATION TAKE FLIGHT.**

---

### **SERVE LARGE TRAINING NEEDS**

In the aviation industry, your employees require thorough training to ensure the safety of aircraft passengers and personnel alike. Circle ensures impactful training by providing you with the tools to build competency and monitor training outcomes effectively.

### **GUARANTEE SAFETY**

Whether you're training pilots, aircraft mechanics, in-flight crew, or ground crew, competency is critical. To ensure successful safety outcomes, Circle provides you with highly customizable training tools, including detailed performance and compliance tracking metrics.

### **MAKE CONTINUOUS TRAINING EASY**

Continuous training is extremely important in ensuring that your employees are retaining and applying the knowledge they've learned to their work. Circle makes it easy to implement refresher training materials to employees across all levels of your organization, keeping them engaged and up-to-date.

### **ATTRACT AND RETAIN NEW EMPLOYEES**

Employee shortages are some of the aviation industry's greatest challenges. Effective training not only drives strong performance for your current employees, but it can also help you attract new talent and improve retention by creating a culture of reliability. Impactful training, guaranteed safety, and proven success is key in attracting new employees and keeping them on board. Circle provides you with the training tools to produce successful outcomes that fuel trust.

### **DELIVER EXCELLENT CUSTOMER SERVICE**

Your frontline employees are a reflection of your brand image through their direct interactions with your customers. For this reason, excellent service is necessary to make a positive impact on your customers and encourage loyalty. Circle's training tools help promote exceptional customer service by aligning your business's values across all levels of your organization and ensuring consistent training outcomes for employees in every location, department, and role.

# CIRCLE LMS FOR AVIATION

Circle delivers effective and powerful training to help your organization's productivity soar. When dealing with the safety of hundreds of passengers and personnel, it is crucial that your employees are highly competent and thoroughly trained. Circle enables you to establish effective training, perfectly fit to all of your employees, across all locations and languages, and integrate with external systems for unlimited customization. With Circle, the sky is the limit.

## **EFFECTIVE TRAINING FOR ALL ROLES**

With so many different roles in the aviation industry, a diverse training platform is essential. Circle accommodates a wide range of learners by hosting online and classroom course management tools, ensuring the perfect training environment for every learner. Circle automates the training assignment process to ensure that your employees will only receive the training that is relevant to their specific roles.

## **AUTOMATED COMPLIANCE MANAGEMENT**

The aviation industry deals with incredibly important work. Unsurprisingly, it is one of the most regulated industries in the world. Circle's automated compliance management is the solution to dealing with large influxes of frequently changing compliance requirements.

## **EASY CERTIFICATION MANAGEMENT**

In the aviation industry, certification is an essential tool in verifying your employees' skills and competencies. Circle makes employee certification easy, simplifying the process by enabling you to automatically assign certification to any number of employees upon completion of required courses.

## **EFFORTLESS INTEGRATION**

Circle is an open integration platform, enabling you to interface with a limitless number of external applications. You can easily upload external courses from virtually any source and collaborate with an unlimited number of external systems. Circle's open integration capabilities allow you to tailor your training programs to every different learner and create a highly personalized experience.
